

KLOVE is vital to my local community. Through their community calendar, I am kept up to date and notified of events in my area. If displaced by another broadcaster, my community would lose a valuable asset. I am encouraged to find that more and more of my daughter's friends are listening to KLOVE instead of the secular stations. Not all but most secular music describes a life of partying and "good times" involving alcohol and sex. The programming offered with KLOVE is encouraging to improve your own life and the lives of others around you. Many of our local volunteer efforts are mentioned on KLOVE's community calendar and the turn out of volunteers to help our community are primarily KLOVE listeners. Once again, KLOVE is vital to the growth and improvement of my community. The positive and encouraging message provided through KLOVE sparks the desire to help others thus creating the citizenship needed in community service to help our community grow.
